

**Haitham El Mufti**  
Surrey, United Kingdom • Amman, Jordan  
haithammufti@gmail.com

**Profile:**

A leading figure within the Middle East in the establishment of applied research capabilities and the application of technology and innovation in support of commercially viable private and public sector development programs.

As the former advisor to His Majesty King Abdullah II Bin Hussein, Haitham was directly responsible for the provision of specialist advice and support in defense policy, security, research and technology. Whilst in this role he is credited with leading a core team in the establishment of the King Abdullah II Design and Development Bureau (KADDB). An organization that provides expert scientific and engineering support to the Jordan Armed Forces (JAF) and provides a national focus for the development of an independent defense industrial base.

Upon establishing KADDB, he continued to co-ordinate and oversee the organization's international commercial operations and development programs with the JAF and lead KADDB's growth and commercial success as an internationally recognized technology and innovation house.

Today, Haitham is partner and CEO at JISRI - Jordan International Scientific Research and Innovation which develops breakthrough new technologies across a variety of sectors.

**Current Work:**

**Co-owner/Chief Technical Officer-HILRF Technology** *(2021 – Present)*  
*Advanced Medical Solutions International (AMSI)*  
*West Palm Beach, FL*

*As a technical officer for HILRF technology at AMSI, I oversee all the technical aspects of different applications and how HILRF technology conform to delivery of the best results. Also, I supervise the development team and make sure all technical specifications meet the needed expectations.*

**Chief Executive Officer (CEO)** *(2013 – Present)*  
*JISRI – Jordan International Scientific Research & Innovation – Amman, Jordan*

CEO of a prototyping and early development firm that exclusively invents, develops and owns proprietary technology for application in a range of sectors including Medical, Energy, Industrial and Security.

JISRI specializes in high-tech sensor technology and aims to provide novel, premium and highly effective solutions to industry inefficiencies specifically regarding the accurate identification, measurement, and monitoring of organic and inorganic materials.

## **Previous Work Experience:**

**Member of the Board of Directors and Auditing Committee** (2009 – 2017)  
*Bank of Jordan - Amman, Jordan*

Representing Al - Ekbal Jordanian Company

**Advisor to His Majesty The Supreme Commander, King Abdullah II Bin al Hussein** (1999 – 2008)  
*Royal Hashemite Court - Amman, Jordan*

Directly responsible to His Majesty for the provision of specialist advice and support in defence policy, research and technology, security and political studies appropriate to the Middle East. Acted as the point of contact for KADDB.

**Chairman** (1999 - 2006)  
*King Abdullah II Design and Development Bureau (KADDB) - Amman, Jordan*

Lead a core team to create KADDB after being asked by His Majesty to establish an organization to provide expert scientific and engineering support to the Jordan Armed Forces (JAF). Responsible for coordination and oversight of KADDB's development programs with the Jordanian Armed Forces (JAF) and for the conduct of international commercial operations. Lead KADDB in its growth and commercial success to become an internationally recognized technology and innovation house.

Overseeing more than 20 of its joint-venture and partner companies, including:

- Jordan Light Vehicle Manufacturing (JLVM)
- NP Aerospace Jordan
- CLS Jordan
- Seabird Aviation Jordan (SAJ)

In addition leading the establishment of:

- The Private Industrial Free Zone
- Jordan Advanced Machinery Company
- King Hussein Car Museum
- King Abdullah Special Operations Training Centre (KASOTC)
